with a wide range of
solutions and options.

Product description

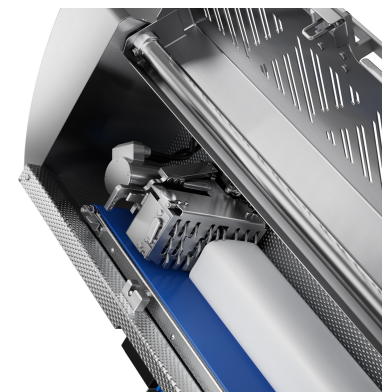

Unique in its class - fully automatic slicer with integrated weighing technology for portioning and weighing of individual slices. The Bizerba slicer A660 offers maximum flexibility and efficiency as well as decorative slice depositing and portioning to precise weights of any product. Product remnants are minimized and overweight in target weight portions reduced by up to 15 %. This is possible due to the unique weighing process directly during the slicing process. The automated product fixation and the loading capacity for products up to 900 mm long are especially suitable for equalized products and contribute to optimize the throughput.

A660

Highlights

- Slicing, shingling or stacking of almost any kind of sausage meats and cheeses - and usually without having to pre-frost.
- Compact construction, ideal for use in smaller rooms and relocation in wet area for cleaning purposes.
- Particularly easy, ergonomic and safe handling during production and cleaning; quickly available with flexible locations.
- Perfect target weight control with tendency control with to-the-slice precision
- Simple reporting of production parameters and line output with _statistics.BRAIN
- Automated product holder allows simple fixing of products with a length of up to 900 mm without requiring any strain. The advantage: reduced setup times.
- Optimal corrosion protection, sophisticated sealing concept and possible drainage of condensed water
- Easy serviceability

One of the product holder of A660

Options

- | | | |
|---|--|--|
| – integrated scale for portioning and weighing of individual slices | – The right discharge conveyor is available for every production requirement | – An optimal product holder is available for every product. |
| – TCP/IP-connection to _statistics.BRAIN | – Hard-chromium plated blade | – Product fixation with hold-down device for perfect slicing results |

Customized solutions are developed and implemented by the Customer Solution Center

Hygienic design of A660

My Bizerba

We offer you solutions from a single source which can be customized and allow you to respond to any change in a flexible manner. Benefit from costs which can be planned and efficient processes. We are happy to advise you.
