RetailApp

BIZERBA

RetailApps – small units of functionality with major impact.
These useful applications supplement the RetailPowerScale scale solution
and combine individuality with the advantages of standard software.
Modular design, readily available, at an attractive price.

More information
High performance with
a wide range of
solutions and options.

EasyOrder

It doesn't get any easier: With the RetailApp EasyOrder you manage customer orders directly on the scale – from recording and preparing orders up to completion for order pick-up.

The RetailApp EasyOrder cleans up - no more hand-written order notes or contact data and time consuming order changes. Orders are simply entered on the scale and created orders remain in the system until they are picked up and completed. When an order is picked up a sales ticket will open allowing the operator to register more articles, if needed. Order changes made easy - simply open an order and enter desired change. Everything in a single system. Hand-written notes belong to the past with EasyOrder.

Functionalities

- Order processing directly on the scale
- Customer data are recorded temporarily just for the order
- Integrated search function for orders
- Sales are booked when order is picked up
- Project-based connection to online ordering systems possible

Benefits

- Easy operator prompting step-by-step
- All orders at a glance, sorted by pick-up date
- No more hand-written notes - complete processing of orders on the scale
- Complete integration of order management in the sales process
