Product Sheet
RetailApp

RetailApps – small units of functionality with major impact.
These useful applications supplement the RetailPowerScale scale solution
and combine individuality with the advantages of standard software.
Modular design, readily available, at an attractive price.

More information
High performance with
a wide range of
solutions and options.

GrossPricing

More information on your scales: With the RetailApp GrossPricing you improve customer communication and expand your customer base by showing additional price information on your scales.

The RetailApp GrossPricing additionally integrates the gross price/net price in the surface of RetailPowerScale scales. The Corporate Design is kept by completely integrating the RetailApp in the scale surface. Addressing a larger range of customers by displaying all important information on the scale using GrossPricing.

Functionalities

– Display of gross price/net price as additional information
  on RetailPowerScale scales
– Complete integration in the scale user interface
– Display and layout can be customized
– Price information on customer display possible

Benefits

– More information for consumers
– Addressing more customers and increasing customer
  satisfaction
