Data Sheet
iS30 weighing terminal

BIZERBA

The multi-talent among the weighing terminals - the iS30 weighing terminal impresses in terms of its large fully graphic display and its compact design. With its comprehensive range of interfaces and software programs this terminal impresses in all application areas.

More information
High performance with a wide range of solutions and options.

Product description

Thanks to its many interfaces and software programs the versatile weighing terminal iS30 covers a wide range of applications for the chemical or pharmaceutical industry, in the food area, logistics or in the metal and electro industry.

With the large fully graphic display the operator sees all important process information at a glance. Product data can be quickly viewed and edited. Thanks to an alphanumeric keyboard data can be effectively entered or deleted. Large keys with mechanical pressure point allow operation with gloves. An acoustic signal confirms an input. Thanks to powerful electronics of the terminal, weight values can be quickly established and data directly transferred to higher ranking systems. Up to two weighing modules may be connected for even more flexibility.

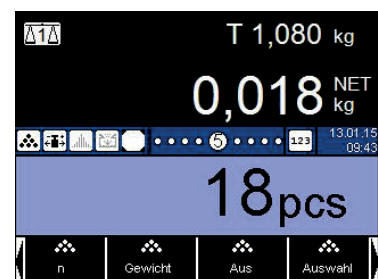

iS30 weighing terminal with column

Highlights

– Robust industrial design with IP65 protection
– VESA 100 mounting option on the back of the housing
– Additional IP69 protection for high pressure cleaning in harsh environments
– Housing as table-top/wall mount version or for control panel mounting
– 5.7" fully graphic display with a 320 x 240 resolution and LED backlighting
– Fast and exact weight value establishment even in case of time-sensitive applications
– Four function keys which can be freely assigned and four more application keys for quick input of process data

iS30 weighing terminal

Fully graphic display

Options

– Interfaces RS232, RS422, Profibus DP, Profinet IO, USB, Ethernet and 24 I/Os
– Up to two scale interfaces for connection of analog scales, Pesa scales or precision scales
– Application programs, program licenses: Weighing, counting, tolerance control, statistics, single-component filling, dynamic calibration, in-motion weighing, recording database, data input devices, data output devices, field bus
– Battery pack with charger and battery holder
– Various measuring and data cables
– Column, protective cover
