S121

BIZERBA

Multi-functional device for strip cutting and tenderizing of meat for industrial continuous operation. Perfect all-round protection and easy handling allow fatigue-free operation. Perfectly suitable for daily use also in the gastronomy business.

More information
High performance
with a wide range of
solutions and options.

Product description

The S121 is intended for daily use in all food processing companies. Tenderizer and strip cutter for turning fresh meat and cold cuts as well as fruit and vegetables into fine salads and pan-fried meals.

It stands out in terms of performance and precision, reliability and flexibility.

Using the unique Emotion® drive concept, this multifunctional device is not only efficient and quiet but also suitable for continuous operation with automatic product feeding.

S121

Highlights

- Multi-functional device for industrial continuous operation
- Strip cutting, tenderizing and knitting - all using a single device
- Compact, tilt-proof
